Reasons for choosing SAP

SAP Business One reduces duplication of data, streamlines the day-to-day operations while simultaneously increases productivity and data accuracy.

We can now enhance even further our fast delivery service promise for shipping within 24hrs from order confirmation.

Key benefits

Real-time reporting reinforces our capability of immediate delivery as 99% of all our catalogue items are in stock.

Improved procedures help our staff in export department to quote the best freight rate orders as we offer competitive worldwide sea and air freight services.

Customer quote

“Supernova Consulting lived up to their reputation providing exceptional service customizing SAP Business One to meet our specific business needs. From putting a plan in place to the implementation of the project, the experts of the company delivered in a timely and professional manner.”
