

Integrate wider operations and ensure greater visibility with SAP Business One

Before: Challenges and Opportunities

- Need for an integrated, scalable and flexible solution to support the Organization growth
- Improvement of legal and management processes with real time information and decision support systems
- Streamline of business process to further enforce internal controls

Why SAP and Supernova Consulting

- SAP Business One is an integrated solution that supports sales, drive down operational costs and improve overall efficiency giving us real-time access to management reports for more informed decisions.
- Supernova Consulting is an experienced local partner with deep knowledge of companies needs

After: Value-Driven Results

- Efficient and faster production planning processes to better track inventory and delivery times
- Real-time access to data enables employees to be more focused in addressing customers' needs
- Wider integration of operations to ensure greater visibility and control over company processes to meet not only current but also future business needs

“Choosing SAP Business One solution and partnering with Supernova Consulting Ltd provided us with a dedicated and an innovative team **working towards our future needs with effective business solutions. Now we can enhance further our strong global presence** and safeguard the great respect we have earned all these years from our suppliers and customers.”
