

How can a software solution improve business process integration and increase operational efficiency?

Located near the sea, spreading in over 50,000m² of land, employing over 100 employees and helping more than 3,500 patients.

The German Oncology Center (GOC) operates since October 2017 and is a medical center of excellence offering state of the art oncological services including Radiology, Nuclear Medicine, Medical Oncology and Radiation Oncology. Reinforcing its commitment to continuously improve its services, GOC needed to implement an integrated, scalable and flexible solution to support its growth, improve its legal and management processes with real time information and decision support systems and streamline its business process to further enforce its internal controls. The Management of GOC chose SAP Business One.

SAP Business One enables GOC to **have access in real time information** for better decision support.

With the implementation of SAP Business One, German Oncology Center was able to:

- Streamlines business processes across accounts payable, accounts receivable and service module
- Reduce internal overheads for data processing and periodic procedures
- Increase efficiency and productivity
- Access real time information for decision support
- Build a single point of truth for financial and logistics data repository
- Support legal and management requirements
- Engage Employees who had quickly embraced the new system and expressed satisfaction for its ease of use

“We expect this solution to be reliable, **integrated and flexible to support our healthcare processes and to provide real time data to support our organizations’ management and legal reporting requirements.** With the dedicated and innovative team of Supernova Consulting we have managed to gather our complex requirements aiming in meeting not only our current but also our future needs”

George Georgiades, Chief Operation Officer, German Oncology Center
