

Automated management reporting, reliability and up to date technology with **SAP Business One**

Before: Challenges and Opportunities

- Existing solutions did not provide automated management reports
- Internal controls were not efficient and therefore complicated and not cost effective
- Integration of unconnected systems to support future growth
- Increase efficiency of operations and processes between sales and accounts

Why SAP and Supernova Consulting User

- SAP Business one offers reliability, friendly user environment and covers the needs of the company
- Supernova Consulting is one of the leading local partners with proven expertise and excellent after sales support

After: Value-Driven Results

- Flexibility, immediacy and accuracy in data analysis
- Valuable insight to daily business
- Tracking of costs, revenues and cash flow
- Effective management of planned and controlled purchases
- Available data at each level: no waiting times, no redundancy
- One user interface helps employees work smoother

“With the SAP Business One solution, implemented by Supernova Consulting **we have moved from the previously scattered data to an integrated system**, thereby not only improving back office activities, but also significantly optimizing and centralizing data management’.
