

The Best-Run Businesses Run SAP™

Uniteam Marine Group Shipmanagement

We needed a platform that could support our international growth and provide better performance visibility at all levels. With SAP® Business All-in-One supporting our international operations and SAP® BusinessObjects™ Business Intelligence offering us cutting edge decision support systems we have what we need to manage our growth.

Customer Profile

Working as a team in Cyprus since 1978, Uniteam Marine Group has expanded into a multinational company with associated offices based in Hamburg - Germany, Klaipeda - Lithuania, Odessa - Ukraine, Singapore and Yangon - Myanmar. The group is active in full management, operations, crew management, technical management, financial administration, consultancy and ISM / ISO 9001:2008 services. What sets Uniteam Marine Group apart is the care and attention given to each and every Client and ship. By following the Group's commitment to quality rather than quantity, through controlled growth, its ability to manage all ships personally is not a goal at Uniteam Marine Group but a reality.

With SAP solutions Uniteam Marine Group achieved the implementation of a platform that supports international growth, the provision for better decision support systems and the improvement of visibility into Group and customer profitability.

The SAP® BusinessObjects™ Business Intelligence suite redefines the way enterprises achieve remarkable results by allowing selfservice access to relevant information. It helps business users transform their decision making by providing fact-based, quality information regardless of where the data resides.
