Transform your Crew Management today

With Supernova's Crew Platform, you can ensure your crew operations are smooth, compliant, and efficient. Harness the power of SAP technologies to take your maritime operations to the next level.

Crew Platform Modules

Crew Management

A comprehensive tool for administrators to manage all aspects of crew data.

- **New hire/Termination of employment:** Manage seafarer lifecycle, hire-to-rotate.
- **Personal Information:** Addresses, emergency contacts, communication details.
- **Contracts & Voyages:** Track contracts and extensions, voyages and travel dates.
- **Payroll & Benefits:** Manage bank account information, loans, payroll benefits.
- **Certificates:** Keep track of valid and expiring certificates and travel documents.
- **Performance:** Conduct appraisals and manage crew performance.
- **Absences:** Visibility into crew availability due to time off or trainings.
- **Learning:** Monitor progress and completion of seafarers' assigned courses through integration with industry learning platforms.

Crew Planning

A visual tool designed to simplify the rostering and planning of voyages.

- **Intuitive graphical vessel planner**
- **Colour-coding for visual tracking and exceptions related to:**
 - Contract expirations and extensions.
 - Certificate matrix rules/expiring certificates & travel document.
- **Contract Management:** Plan future contracts and manage contract extensions.
- **Voyage Planning:** Sign-on/Sign-off, promotion on board, or vessel change.
- **Crew Change Announcement** with email templates for port agents and ticketing.

Crew Payroll

Offers a streamlined and enhanced process based on the data from the Crew Management and Crew Planning modules.

- **Automation of Payroll Activities** enhances efficiency by reducing manual tasks & minimizing errors.
- **End-to-end Monitoring and Configurable Alerts:** a dashboard provides real-time visibility into payroll data and alerts for any issues, enabling quick resolution.
- **Improved Accuracy:** automated root cause analysis helps identify and resolve issues promptly, ensuring accurate payroll processing.
- **Compliance and Transparency** over the entire payroll process.
- **User Experience:** an intuitive interface allows administrators to easily navigate and manage payroll tasks.
